Certified Professional Dog Trainers

*Proven
Knowledge*

**Certification
Council for
Professional Dog
Trainers**

With no licensing or mandatory educational requirements for dog trainers, it can be difficult to determine which trainer has the experience and knowledge to best help your pets with training and behavior concerns.

Certified Professional Dog Trainers-Knowledge Assessed (**CPDT-KA**) and Certified Professional Dog Trainers-Knowledge and Skills Assessed (**CPDT-KSA**) are required to provide recommendations by other professionals, pass an independent, psychometrically sound and science-based exam, and demonstrate their knowledge of training.

Certification exams are reviewed and updated regularly. Certificants are required to accumulate continuing education for recertification every three years.

The CCPDT Mission Statement

The Certification Council for Professional Dog Trainers establishes and maintains humane standards of competence for animal training and behavior professionals through criteria based on experience, standardized testing, skills and continuing education, and identifies and markets those individuals to the public.
